

# **WORLD MOTOR VEHICLES PRODUCTION BY COUNTRY AND TYPE 2008**

**Edition du 17/06/2009**

## DEFINITIONS

Cette brochure "Statistiques de l'OICA" regroupe **les statistiques mondiales de véhicules**, obtenues à partir d'enquêtes auprès des organisations nationales professionnelles, membres ou correspondants de l'OICA.

### Les définitions des types de véhicules

**Les voitures particulières** sont des véhicules à moteur ayant au moins quatre roues, affectés au transport de personnes, comportant, outre le siège du conducteur, huit places assises au maximum.

**Les véhicules utilitaires légers** sont des véhicules à moteur ayant au moins quatre roues, affectés au transport de marchandises et ayant un poids total autorisé en charge jusqu'à 5 tonnes. Les **minibus**, véhicules jusqu'à 5 tonnes de poids total autorisé en charge, sont compris dans cette catégorie ; ils sont affectés au transport de personnes et comportent, outre le siège du conducteur, plus de huit places assises.

**Les véhicules légers** regroupent les voitures particulières et les véhicules utilitaires (jusqu'à 5 tonnes)

**Les véhicules industriels** sont des véhicules affectés au transport de marchandises ayant un poids total autorisé en charge supérieur à 5 tonnes. Cette catégorie comprend les tracteurs routiers conçus pour être attelés à une semi-remorque.

**Les cars et bus** sont des véhicules à moteur affectés au transport de personnes comportant, outre le siège du conducteur, plus de huit places assises et ayant un poids total autorisé en charge supérieur à 5 tonnes.

Les **véhicules utilitaires** regroupent les véhicules utilitaires légers, les véhicules industriels et les cars et bus.

### La production, l'assemblage, les exportations

Les organisations professionnelles nationales distinguent entre la production de véhicules montés et l'assemblage de 'collections', c'est-à-dire des véhicules partiellement montés ou des sous-ensembles ayant subi un montage partiel, venant d'un autre pays d'origine.

### Les unités

L'unité est le véhicule.

### La périodicité

Les organisations professionnelles sont interrogées sur leurs données annuelles. Chaque été, une interrogation sur les six derniers mois permet de se faire une première idée des résultats de l'année en cours.

## DEFINITIONS

This brochure "Statistiques de l'OICA" contains world motor vehicle production statistics, obtained from national trade organisations, OICA members or correspondents.

### Vehicle types definitions

**Passenger cars** are motor vehicles with at least four wheels, used for the transport of persons, and having no more than eight seats, driver excluded.

**Light commercial vehicles** are motor vehicles with at least four wheels, used for the transport of goods. Gross vehicle weight (in metric tons) is used as a limit between light commercial vehicles and heavy trucks. This limit depends on national and professional definitions, and varies between 3.5 and 7 tons. **Minibuses**, derived from light commercial vehicles, enter this category. They are used for the transport of persons, have more than eight seats, driver excluded, and their GVW is below this limit.

**Light vehicles** include passenger cars and light commercial vehicles.

**Heavy trucks** are vehicles intended for the transport of goods. Their GVW is over the above limit. They include tractors designed for towing semi-trailers.

**Buses and coaches** are used for the transport of persons, having more than eight seats driver excluded, and a GVW over the above limit.

**Commercial vehicles** include light commercial vehicles, heavy trucks, coaches and buses.

### Production, assembly and exports

National professional organisations distinguish between **production** of completely built up (CBU) vehicles and **assembly** of completely knocked down (CKD) or semi knocked down (SKD) sets coming from another country.

**Exports** are vehicles expeditions out of the country of origin.

### Units

Unit is the vehicle.

### Periodicity

National trade organisations are surveyed on their annual data. Every Summer, a survey of the last six months provides a first estimate of the current year's results.

(1) Official figures take account of Swedish manufacturers world production; in this report, we only use the vehicles produced in Sweden, and the vehicles for which Volvo Trucks does not specify the country of production.

(2) Distribution of commercial vehicles is derived from KAMA's OICA exchange files.

## WORLD RANKING OF MANUFACTURERS IN 2008

### LIST OF MANUFACTURERS:

(China and Malaysia are minus joint ventures)

ANHUI JIANGHUAI	ISUZU
ASHOK LEYLAND	JIANGXI CHANGHE
AVTOVAZ	KIA
B.M.W.	KUOZUI
BEIJING AUTOMOTIVE	LUAZ
BRILLIANCE	M.A.N.
BYD	MAHINDRA
CHANA AUTOMOBILE	MAZDA
CHERY	MITSUBISHI
CHINA NATIONAL	NAVISTAR
CHONGQING LIFAN	NISSAN
CHRYSLER	PACCAR
DAIMLER AG	PORSCHE
DONGFENG	PROTON
FAW	PSA
FIAT	RENAULT
FORD	SAIC
FUJI	SCANIA
GAZ	SHANNXI AUTO
GEELY	SUZUKI
GM	TATA
GREAT WALL	TOYOTA
HARBIN HAFEI	UAZ
HONDA	VOLKSWAGEN
HYUNDAI	VOLVO
